ACCURATUS K82B USB Black Mini POS Keyboard with Large Touchpad

Hypertec Part Code: KYB500-K82BHY

Specification:

- USB Connection
- Mini notebook layout.
- FN (function) key to multiplex some keys, giving you access to a number pad, the insert, print screen, and other keys found on a standard keyboard. Very similar to how a laptop keyboard works.
- Internal metal plate giving a rigid structure and protection against ESD.
- Long lasting high quality UV silk screen printed keycaps.
- Scissor key technology for even key contact to ease typing.
- Dimensions are compatible to a Cherry G84-4100 keyboard.
- An ideal input device for applications in POS and Production Control.
- Supports suspend and resume operation (subject to main-board support) for power saving when not in use.

Mousepad Area:

62.5(L) * 46.5(W)mm

Dimensions:

370(L) * 139(W) * 27(H) mm
