

Wireless Presenter with Red Laser

The presenter that helps make your point

33374EU

Product Description

The Kensington Wireless Presenter with Red Laser puts you in control of your presentation and your audience. Conveniently portable and easy-to-use, it allows you to focus on what matters most - your presentation. Simple forward & back controls are complemented with a clever blackout out screen button letting you hide your slides whilst you manage them or direct attention away from the screen and to you. Plug & Play 2.4GHz of wireless technology means you don't need to worry about interference from other devices or unnecessary cables. The bright red laser beam makes illuminating your key points easy. The presenter remote is ergonomically styled to fit comfortably in the palm of your hand.

Features

- Red laser pointer perfect for highlighting your main messages
- Battery indicator light warns when battery power is low
- 2.4GHz wireless USB receiver prevents interference and stores inside presenter when not in use for safe keeping
- USB receiver deactivates battery when inserted into presenter for storage preventing accidental battery drain
- Comfortable and easy to use design with intuitive laser, forward, back and blackout screen controls
- Wireless range of up to 20m
- USB Plug & Play
- Provides control of PowerPoint® and Keynote® with no drivers needed
- PC and Mac® compatible
- Requires 2 x AAA batteries (included)
