

3M™ Anti-Glare Monitor Filters

See Clearly with 3M's Monitor Protectors

Keep what's on your monitor clear and visible with the 3M™ Anti-Glare Monitor Filter. Mirror-like reflections from bright lights are reduced by the Anti-Glare Filter, helping to keep what's on your screen easy to read no matter what the lighting conditions.

Anti-Glare technology diffuses light and reduces glare so your screen is easier to see in challenging and changing indoor lighting conditions. The thin, lightweight filter is easy to apply, no lamination, no bubbles, no fuss. The 3M™ Anti-Glare Filter can be applied, removed, and reattached numerous times as needed.

For more information about Privacy Filters from 3M™, speak to one of our Account Managers today.
