Product Images

Short Description

1. Charge USB (5V) devices quickly thanks to high output (max. 1A)

2. Charge your USB device without the need of your PC or notebook
3. Small, compact and easy to take along

Description

This USB charger is the ideal solution for charging most of your devices with a USB connection directly through a power socket. The USB charger can handle voltages from 110 to 240 volt AC and converts them automatically to the 5 volt DC that USB devices use. You can easily charge your USB devices without the need of a PC or notebook. Almost all devices which support charging through USB, like (smart) phones, navigation systems, MP3 players and digital cameras can now be charged easily.
