

# Adjustable Sit-Stand Desk Riser 2

Work at a standard desk in a sit-stand position

## Flexible Sit-Stand platform for standard desks.

Alternating between sitting and standing during the working day ensures greater variation in posture. This reduces physical discomfort.

Alternating reduces strain on your back, neck and shoulders. You do not need a sit-stand desk for the adjustable Sit-Stand Desk Riser 2.

The result of alternating between sitting and standing is that a high level of concentration can be maintained for longer (Ebara, et al., 2008). Actual performance while doing DSE work also improves with a sit-stand table (Garrett et al., 2016; Choi, 2010; Hedge and Ray, 2004).
