A Premium quality, full size PC keyboard designed specifically for visually impaired PC users. The Keyboards feature high contrast letters and keys, with lettering over 4 times larger than standard keyboards.

The Keyboard includes 4 extra multimedia keys and built-in, 2 port USB hub with a detachable LED down-light for improved visibility. Complete with soft-touch keys, ideal for all-day comfort, the large printed letters make the keys easier to see

## Choose from a range of easy to view colour combinations:
