

Vertical Stacking Dual Monitor Arm

Mount your monitors vertically.

K53802WW

Product Description

Whether you're a gamer, security professional, trying to maximise your desk space, or simply want to expand top-to-bottom web browsing, the Vertical Stacking Dual Monitor Arm offers stable and secure vertical positioning of two monitors, each up to 32" (9kg/19.8lbs). Easy to install and adjust, the full-motion design offers monitor positioning in any direction, while the integrated cable management reduces clutter.

Features

- Dual vertical mounting, ideal for top-to-bottom web browsing, control rooms, gaming, or anywhere desk space is limited. Holds two screens, each up to 32" (9kg/19.8lbs) in landscape orientation, 29" in portrait orientation.
- Stacked monitor arrangement maximises desk space by allowing two monitors in a single footprint.
- Quick-release height adjustment handle offers smooth and effortless monitor height adjustment.
- Full-motion design allows flexible monitor positioning.
- Detachable VESA® 75/100 plates rotate $\pm 180^\circ$ for landscape or portrait orientation of each monitor.
- Pre-installed C-clamp makes installation easy and provides a stable and secure base (optional grommet mount included).
- Integrated cable management reduces clutter and keeps workspace tidy.
