

540 V2 VESA MINI KEYBOARD

AccuMed 540 V2 VESA Mounted USB Mini IP67 Antibacterial Medical Keyboard with Touchpad

About

Part Code: KYBNA-540VESA-W/KYBNA-540VESA-B

The AccuMed 540 VESA keyboard offers VESA mounting, perfect for keyboard arms and vehicle mounting. The AccuMed 540 also offers ultra slim keys whilst still offering an excellent tactile and responsive feel. The keyboard can be fully cleaned and wiped over in seconds and also has a handy power on/off button, enabling you to turn the keyboard off during cleaning. There is also a cleaning reminder enabling you to set the time span required for cleaning (30min, 1hr, 2hr or 4hr) aiding infection control. The 540 has NANOARMOUR-2 dual layer antibacterial protection in the silicone and coated on the surface to aid in deactivating germs.
