Accuratus Image ECO Wheat Mouse - Wireless Bluetooth 5.1 & RF 2.4Ghz Wheat Grass Polymer Bioplastic Mouse - Black

About

The Wheatgrass Image mouse has been designed with practicality in mind, featuring wireless Bluetooth RF connectivity, a symmetrical design to suit both left and right handed users, and a piano gloss finish. Available in Pewter Grey, Duck Egg Blue, White, and Black.

The ECO range is made of a bioplastic formed from polymers found in wheat, called lignin. The resultant bioplastic is workable, with similar properties to typical plastic - but without the use of any artificial chemicals or fossil fuels.
