

## Global AutoCorrect Single User Download PC

Part code: S-LAP

### Description

Global AutoCorrect saves you time and helps you to focus on what you're writing by automatically and intelligently correcting your spelling as you type. It works with you in all programs, whether you're on the web, preparing a presentation or simply connecting with friends.

### Features

- Vocabulary from over 130 subject dictionaries - Excellent coverage of general academic and subject specific words.
- Improves productivity - helps you to reduce red underlines, spend less time spell-checking and focus on the creative process of writing.
- Intelligent corrections - When you make a mistake, the software analyses the sound patterns in the word to understand what you're trying to spell. This intelligent correction happens instantly.
- Add your own corrections - If the software's not quite sure what you meant, it won't just guess. Instead, you can pick the word you meant and it will be autocorrected in the future.

- Works in all programs - No plugins or configuration needed no matter which program you're using.
- Discreet and easy to use - Runs silently in the background.
- Improve your spelling - Keeps track of your spelling mistakes so you can work on them in your own time.
- Works straight out of the box - The software comes preloaded with millions of autocorrections. It begins to work as soon as it's installed.

## Requirements

- Windows XP, Vista, 7, 8 or later
- 1.5 GHz processor
- 2GB RAM
