

TextHelp Read&Write v11.5 Single User Annual Subscription PC

Read&Write literacy software makes the web, documents and files more accessible - any time, any place, and on any platform or device. It's great for people with dyslexia and other learning difficulties, or anyone whose first language isn't English.

From reading on-screen text aloud to researching and checking written work, Read&Write makes lots of everyday tasks easier. It's a big confidence booster for anyone who needs a little extra help with their reading and writing, at school or in the workplace.

Read&Write is purchased as an annual subscription, allowing you, your school or your organisation access to our software on Windows, Mac, Android and Google platforms. Your software will be automatically updated, compatible and future-proof.

Features

- Hear web pages and documents read aloud to improve reading comprehension, with choice of natural voices
- Understand unfamiliar words with text and picture dictionaries
- Develop writing skills and fluency with word prediction
