

## ZoomText Magnifier Reader v11 - Download

ZoomText Magnifier/Reader is a fully integrated magnification and reading program tailored for low-vision users. Magnifier/Reader enlarges and enhances everything on your computer screen, echoes your typing and essential program activity, and automatically reads documents, web pages, and email.

### Features

xFont technology displays high-definition text that's easy to read at all magnification levels.

Smooth, bold and condense settings allow you to fine-tune the thickness and spacing of text.

Reads aloud in natural sounding voices - ImageReader comes with premium male and female voices for reading captured text.

Complete Screen Reading - Automatically speaks all program controls, including menus, dialogs, list views and messages. Three verbosity levels give you complete control over the amount of information spoken.

Turn text from documents, webpages, email, etc. into audio recordings that you can transfer to on your mobile device and listen to at your convenience

Background Reader allows you to listen to documents, webpages, email, etc. while you simultaneously perform other tasks.

ZoomText reads any web page, in the proper reading order. You can read automatically or manually navigate by word, line, sentence and paragraph.

Typing Echo allows you to hear the keys and words that you type. You can choose to have individual keys, words, or both spoken.

Mouse Echo automatically reads text beneath the mouse pointer. As you move the pointer across the screen, single words or complete lines of text are echoed. Mouse echo is great for exploring the layout of your desktop and applications, or for spot reading in documents, web pages and email.

8 different zoom windows allow you to choose which part of the screen is magnified.

Innovative colour controls improve screen clarity and reduce eyestrain. Special effects include colour dyes, two-colour modes and replacement of problem colours.

Size and colour enhancements make it easy to see the mouse pointer. Special locators make it easier to follow the mouse pointer and text cursor as they move across the screen

Focus enhancements makes it easy to locate and follow the control focus when you navigate through application menus, dialogs and other application controls.

Dual Monitor Support - Use two monitors to expand your magnified viewing area, or use the second monitor to share a magnified or unmagnified view of your desktop with another person or group.

ZoomText Camera feature allows you to use any high-definition (HD) webcam to view and magnify items on your computer screen – bills, magazines, photographs, medicine labels, craft items, etc.

Save unique settings for each application that you use. As you switch applications, ZoomText automatically loads the desired settings.

### **New** Smart Invert

See photos as they were meant to be seen in Internet Explorer 11. With ZoomText's new Smart Invert feature, photos are displayed in their natural colours when ZoomText's Invert Brightness and Invert Colours are active.

### **New** Unified Finder Tool

Locating what you are looking for is easier than ever with the new Finder Tool. Finder lets you search and skim through documents, web pages and email to instantly find any word or phrase you are looking for. You can search through all of the text or only within specific items like headings, forms, links and images.

### **New** Zoom to 1x

The new Zoom to 1x feature lets you instantly switch between zoomed and 1x views, without having to zoom out and zoom back in one zoom level at a time.

### **New** Command Keys

ZoomText 11 has a new system of "Command Keys" that are easier to learn and use. The new command keys also eliminate conflicts and compatibility issues that existed in previous versions of ZoomText.

### **New** Modern Toolbar

ZoomText has a brand new toolbar with a fresh clean look. You can access and operate the entire toolbar with the keyboard or the mouse.

### **New** Geometric Smoothing

ZoomText now smooths the edges of text and graphics in places where xFont magnification can't go.

### **New Consolidated AppReader**

Automatic reading now more efficient and flexible by combining ZoomText's legacy reading tools into one new AppReader. With the new AppReader you can read right in the target application or switch on-the-fly to the high contrast text view that's better for visual reading

### **Requirements**

- Windows 10, 8.1 or 7 with Service Pack 1 (or later).
- Processor: 2 GHz i3 dual core processor or similar. i5 or i7 recommended.
- 4 GB Ram. 8 GB recommended.
- Video card with support for DirectX 10 or higher.
- Recommended: 256 MB dedicated video memory.
- 400 MB hard drive space. SSD drive recommended.
- 5-point multi-touch display for touch screen support.
- USB 2.0 for ZoomText Camera support.
- Internet connection for download
