Supernova Keyboard
Part code: K-HV-SN
Keyboard designed specially to work with Supernova software

Description

The Dolphin keyboard features large print, high contrast keys that are easy to see. The Dolphin keyboard also includes 18 Quick Buttons for speedy access to your Dolphin software's most useful features. These buttons are large and of varied shapes, making them tactile and easy to locate by touch.

With the Quick Buttons you can:

- Start SuperNova

- Display the Dolphin Control Panel for access to all features

- Get help

- Adjust the screen magnification level

- Switch on high contrast color schemes

- Adjust the speech

- Access online services including news, radio, weather, walking directions and podcasts
